

Dolomites Research Week on Approximation 2017 DRWA17

Alba di Canazei (TN) Italy September 4-8th

Tutorial: Approximation methods in Magnetic Particle Imaging (MPI)

Wolfgang Erb (Hawaii) - **Andreas Weinmann** (Darmstadt)

Plenary: Challenges of Anisotropic Refinements

Maria Charina (Wien)

Poster Session (org. R. Cavoretto and M. Vianello)

Working Groups:

- **Approximation Methods in Medical Imaging** (org. D. Poggiali)
- **Approximation in Seismology** (org. M. Slawinski)
- **Meshless Methods and Applications** (org. A. De Rossi and E. Francomano)
- **Multi-exponential Analysis and Tensor Methods** (org. A. Cuyt)
- **Multiresolution Analysis and System Theory** (org. C. Conti and M. Cotronei)
- **Multivariate Polynomial Approximation and Pluripotential Theory** (org. F. Piazzon)

Organizing Committee: M. Caliori (Verona), R. Cavoretto (Torino), S. De Marchi (Padova), A. De Rossi (Torino), F. Piazzon (Padova), D. Poggiali (Padova), A. Sommariva (Padova), M. Vianello (Padova)
