

Dolomites Research Week on Approximation (DRWA18)

Alba di Canazei (Trento, Italy), September 10-14 2018

Tutorial: Reduced Basis Methods

Lecturer: Bernard Haasdonk (Stuttgart)

Poster session: Thursday 13 (afternoon)

Working groups:

Approximations in seismology; M. Slawinski (Newfoundland)

Approximation methods in medical imaging; C. Campi (Padova), D. Poggiali (Padova)

Approximation with Reduced Basis Methods; F. Ballarin (Trieste), B. Haasdonk (Stuttgart)

Mathematical Finance: Modeling and Approximation methods; A. Neisy (Teheran)

Meshless methods and applications; organizers: G. Santin (Stuttgart), E. Perracchione (Padova)

Multivariate polynomial approximation and pluripotential theory; F. Piazzon (Padova)

Organizing Committee: M. Caliri (Verona), C. Campi (Padova), R. Cavoretto (Torino), S. De Marchi (Padova), A. De Rossi (Torino), E. Perracchione (Padova), F. Piazzon (Padova), D. Poggiali (Padova), Marco Vianello (Padova)

Scientific Committee: A. De Rossi (Torino), A. Sommariva (Padova), L. Bos (Verona) e M. Caliri (Verona).
