

The 14th International Conference on
**Integral Methods in
Science and Engineering**

Department of Mathematics,
University of Padova, 25 - 29 July 2016

FIRST ANNOUNCEMENT

This is the first announcement of the **14th conference on Integral Methods in Science and Engineering (IMSE)** which will take place from **July 25 to July 29, 2016** at the University of Padova, Italy, and will be organized by the University of Padova in association with the University of Tulsa, Oklahoma, USA.

The IMSE conferences are an established forum where scientists from all over the world discuss the latest developments in original and effective methodologies relevant to solutions of mathematical models that describe physical phenomena, processes, and related subjects. Participation is open to all scientists and engineers whose work makes use of analytic and numerical methods, integral equations, ordinary and partial differential equations, asymptotic and perturbation methods, boundary integral techniques, stochastic methods, symmetries and conservation laws, hybrid approaches, vortex methods, signal processing and image analysis, among others. Continuing the trend of the previous IMSE conferences, we expect to have a strong participation from all over the world. Padova is located 35 kilometers west of Venice, and is easily accessible by bus from Venice Airport (VCE). Other nearby airports are Bologna Airport (BLQ) and Verona Airport (VRN).

The venue of the conference will be the Department of Mathematics and nearby buildings. We have set up the webpage

<http://events.math.unipd.it/imse2016/>

where we will publish all relevant information. If you have further questions, please contact us at the address

`imse2016 [at] math.unipd.it`

We invite you to help us publicize IMSE2016 among your colleagues and collaborators. Your support in making the conference successful is essential and much appreciated.

We look forward to hearing from you soon.

Best wishes,

Massimo Lanza de Cristoforis
(on behalf of the IMSE2016 Organizing Committee)
